Effective Communication

Summer Programs

Summer is an excellent time for your child to focus on speech, language and reading skills. In addition to our traditional sessions, we offer individual and group* therapy opportunities that address specific areas.

Intensive Speech Programs

Would you like to boost your child’s speech and language skills this summer? Our Intensive Programs are individualized and designed to give children a boost in their weakest areas. These programs address specific goals over a 6-8 week period. They involve one-on-one sessions that focus solely on your child’s needs.

Intensive Reading Therapy (In-Home)**

“One out of every three Americans struggles with reading.”

Does your child:
  - Misunderstand what you say?
  - Give slow or delayed responses?
  - Mispronounce typical word sounds?
  - Get confused in noisy situations?
  - Have an attention problem?
  - Have difficulty reading or learning to read?

If you answered yes to one or a few of these questions, your child may not be processing the sounds of language well or may not link sounds to certain letters, resulting in reading and/or academic issues. Language and reading mastery are among the most difficult challenges a child faces.

Would you like to boost his/her reading level over the summer? Our Intensive Reading Therapy using Fast ForWord® is designed to develop and improve:
  - Listening skills
  - Phonemic awareness
  - Comprehension
  - Fluency

Our goal is to create speed, accuracy, and a love of reading!

Social Groups (SPEAK Groups)

Does your child have difficulty interacting with his peers? Does your heart ache when you see that he/she just doesn’t know what to say and do to make new friends? Our SPEAK Groups can help!

These age-specific groups will concentrate on the following:
  - Social language skill building
  - Peer interaction
  - Encouragement
  - Appropriateness
  - Kindness

We believe results do SPEAK and summer is a great time to focus on these skills.

*Groups are limited to 3-6 kids, and participants must be willing to participate in a group environment. Participation requires basic conversational skills, willingness to follow directions, and no aggressive behaviors towards children or adults.
**Participants in reading therapy should be in 1st grade or above.
